SUMMARY

Computer Science Engineering student with a strong foundation in C, C++, HTML, CSS, and JavaScript, with hands-on experience developing web-based projects and participating in hackathons. Passionate about problem-solving and software development, with a keen interest in learning new technologies and building practical solutions.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

Sahyadri College of Engineering & Management, Mangalore, Karntaka
2025 – 2029 (Expected) | CGPA: 9.6

Pre-University Course (PUC) – Science

Canara Excellence pre-university college, Kumta, Karntaka
2023-25

Secondary School Leaving Certificate (SSLC)

Mar Thoma English Medium High School, Honnavar, Karnataka
Passing year : 2023

TECHNICAL SKILLS

- Programming Languages: Basics of C, C++, Python, Java
- Web Technologies: HTML, CSS, JavaScript
- Core Concepts: Basics of Data Structures & Algorithms
- Tools & Platforms: Git, GitHub, VS Code

PROJECTS

Aptitrio – Adaptive Learning Platform

React.js, JavaScript, AI/LLM Integration

- Developed an aptitude learning platform designed to adapt learning activities according to user performance.
- Implemented structured learning levels, topic-based assessments, progress tracking, and gamification concepts.
- Designed a flow where incorrect answers lead to explanations and similar follow-up questions for improved learning.

LifeLink – Blood Donation Web Application

HTML, CSS, JavaScript

- Developed a web platform connecting blood donors and blood-request users.
- Implemented donor/request management and user-interface functionality.
- Added browser-based data handling and interactive features for a practical donation workflow.

HACKATHON

VERSATHON 2.0

Participated in a 24-hour hackathon focused on developing innovative technology solutions.

CERTIFICATION

Learning through CodeChef platform
